Index of Subjects

Bacillus subtilis spores, destruction with NaOH, 315
Bacteria, cheese milk, Cheddar cheese flavour, 87
Bacteriology, starters (review), 419
Blood, occurrence in milk, cows, 1
Breeds, heritability, casein variants, 251
Butterfat, *see* **Milk fat**

Carotene, content, milk fat, N.Z., ryegrass maturity 59
Casein, action of rennet and proteolytic enzymes, casein agar gels, 17
action of rennin, 7
β-**Casein**, preparation, urea-fractionation, 259
variants, heritability, 251
κ-**Casein**, action of rennin, 7, 77
complex composition, preparation, 375
preparation, 101
Caseinate, Na, action of vegetable rennets, 197
Cheddar cheese, flavour, bacteria in cheese milk, 87
H_2S, 235
milk fat, oxidative stability, 369
steam distillation, methyl ketones formed, 161
Cheese, manufacture, occurrence of blood in the milk, 1
Cheesemilk, bacteria, Cheddar cheese flavour, 87
Citric acid, determination, milk and milk ultrafiltrates, 171
Clover, fed, vitamin *A* content, milk fat, N.Z., 47
Trifolium pratense, oestrogenic activity, 243
Coagulation, rennetted milk, detection, 383
Colostrum, sow's, fatty acid composition, 339
Colour, heat induced changes, goat's milk, 217
Concentrates, replacement by fodder beet, milk yield, 199
Condensed milk, unsweetened, S.N.F. determination, refractive index measurements, 411
Cream, steam distillation, methyl ketones formed, 19

Dairy science, rumen physiology and microbiology (review), 261
starters (review), 419
Dried skim-milk, changes during storage, 223
Dried whey, feeding pigs, 325
Dry butterfat, steam distillation, methyl ketones formed, 161

Enzymes, proteolytic, action on casein, casein-agar gels, 17

Fatty acids, milk, ryegrass fed, milk fat properties, N.Z., 67
Feeding, concentrates *vs.* fodder beet, milk yield, 199
hay *vs.* silage, milk yield, 391
milk composition determination, use of quarter samples, 209
Feeding, pigs, dried whey, 325, 331
pre-partum, heifers, milk composition, 403
Flavour, Cheddar cheese, bacteria in cheese milk, 87
H_2S, 235
milk, volatile components, determination, 359
Fodder beet, *vs.* concentrates, milk yield, 199

Goats, milk, colour, heat induced changes, 217

Hay, *vs.* silage, milk yield, 391
Heat, colour changes, goats' milk, 217
Heat treatment, bacteria in cheese milk, Cheddar cheese flavour, 87
Heifers, *pre-partum* feeding, milk composition, 403
Heritability, casein variants, cows' milk, 251
machine milking rate cows, N.Z., 191

Iraq, milk composition, sheep, 81

Keeping quality, milk, volatile components, 359
Ketones, methyl, formation, steam distillation, Cheddar cheese, cream, dry butterfat, 161

Lactenins, *Str. lactis* sensitivity, 345
Lactose-casein, changes during storage, 223

Mammary gland, tissue damage, subclinical mastitis, milk yield and composition, 23
Mastitis, subclinical, milk yield and composition, 23
Meal, level fed pigs, + unrestricted whey, performance' 35
Microbiology, rumen (review), 261
Milk, occurrence of blood, cheese manufacture, 1
Milk composition, determination, quarter samples, 209
pre-partum feeding, heifers, 403
sheep, Iraq, 81
tissue damage, subclinical mastitis, 23
Milk fat, dissolved O_2 estimation, 399
fatty acid composition, sows, 339
from Cheddar cheese, oxidative stability, 369
N.Z., properties, milk fatty acids, ryegrass fed, 67
vitamin *A* and carotene content, 47, 59
Milk fat yield, cows fed fodder beet, 199
Milk sampling, quarter samples, use, 209
Milk yield, feeding, concentrates, *vs.* fodder beet, 199
hay *vs.* silage, 391
tissue damage, subclinical mastitis, 23
Milking, by machine, rate, cows, N.Z., 191

New Zealand, milk fat properties, 47, 59, 67

Oestrogens, red clover, *Trifolium pratense*, 243
Oxidation, milk fat from Cheddar cheese, 369
Oxygen, dissolved in milk fat, estimation, 399

Pigs, fatty acid composition, milk and body fat, 339
feeding, dried whey, 325, 331
meal levels + unrestricted whey, performance, 35
Physiology, rumen (review), 261

Refractive index, S.N.F. determination, milk, 411
Rennet, action on casein, casein-agar gels, 17
milk coagulation, detection, 383
vegetable, action on Na caseinate, 197
Rennin, action on casein, 7, 77
Rumen, physiology and microbiology (review), 261
Ryegrass, fed, milk fat properties, N.Z., 47, 59, 67

Sheep, milk composition, 81
Sialic acid, release from κ-casein, rennin, 77
Silage, *vs.* hay, milk yield, 391
Sodium hydroxide, destruction of *B. subtilis* spores, 315
Solids-not-fat, determination, milk, refractive index measurements, 411
Starters, review, 419
Storage, dried skim-milk, lactose-casein changes, 223
Streptococcus lactis, sensitivity to lactenins, 345
transduction, 351

Trifolium pratense, red clover, oestrogenic, 243

Udder, tissue damage, subclinical mastitis, milk yield and composition, 23

Vitamin *A*, content, milk fat, N.Z., 47, 59

Whey, unrestricted, fed pigs, meal level, performance, 35

Index of Authors

Abbot, J., 209
Allen, Lois K., 351
Aschaffenburg, R., 251, 259
Auclair, J., 345

Beeby, R., 7, 77
Blackburn, P. S., 23, 209
Bothwell, P. W., 109
Bowland, J. P., 339
Burnett, J., 383
Burton, H., 217

Castle, M. E., 199
Cheeseman, G. C., 17
Clegg, L. F. L., 315

Davies, D. T., 171
deMan, J. M., 339
Drysdale, A. D., 199
Dunkin, A. C., 323, 331

Elliker, P. R., 351

Flux, D. S., 243
Foot, A. S., 403
Franklin, J. G., 87

Goulden, J. D. S., 411

Hansen, Raione R., 375
Hawke, J. C., 67
Hill, R. D., 101, 375
Hobson, P. N., 261

Kay, R. N. B., 261

Lawrence, R. C., 161, 235
Line, C., 403

Mabbitt, L. A., 359
McDowall, F. H., 47, 59
McDowell, A. K. R., 369, 399
McGillivray, W. A., 47, 59
McKinnon, Gillian, 359
Mitchell, K. G., 35
Møller-Madsen, A., 419
Munford, R. E., 243
Murdoch, J. C., 391

Nejim, H. T., 81
Nitschmann, H. S., 7

Rammell, C. G., 1
Reiter, B., 419
Richards, E. L., 223
Rook, J. A. F., 391
Rowland, S. J., 403
